IN 912

Sea Island-based **Seaside Grown** brand launched their new Bloody Mary mix with an all-day event at Frogmore Plantation, including a brunch, a sporting clays shoot, an evening feast, and live Lowcountry music. Pick up a bottle for your own weekend soiree ([seasidegrown.com](http://seasidegrown.com)) ... With a Bowerbird coffee counter pouring a special Perc blend, a Honeysuckle gelato stand, a full delicatessen, and a dining room serving executive chef Andrew Wilson's American brasserie fare, **The Emporium Kitchen and Wine Market** at the Perry Lane Hotel is truly an all-day café—and as a bonus, the wine market in the bar delivers top bottles to diners at wine-store prices (254 E. Perry Lane) ... Head to the beach for some small plates or a whole snapper to share at **Salt Island Fish and Beer** (101 Lovell Ave., Tybee Island), run by husband-and-wife team Eric and Emily Liebttag. The couple moved from Colorado last summer to open this sweet spot specializing in what they call “New American beach food”: fresh, sustainable seafood, craft beer and reimagined coastal classics like crab fries and hush puppies – they make their version with brown ale, pepper jack cheese, and tomato-bacon jam ... For summer party menus made easy, check out **Prepped** (4700 Hwy. 80 E.), a new grab-and-go café from JThomas Catering offering salads by the pint and take-home sides and dinners ... If your own personal barbecue skills aren't up to snuff, **Jim 'N Nick's Community Bar-B-Q** (147 Traders Way) opens their second area location in Pooler ... From the Nine Line Apparel team comes **Georgia Land and Cattle** (1732 President St.), a new lifestyle brand selling free-range meats (think burgers, bacon, and steak), small-batch coffee, gift baskets, and patriotic home décor ... In non-food news, **Mani Pedi** salon (4503 Habersham St.) now exclusively carries Aveda products for all nail and skin treatments, and **Budget Blinds of The Coastal Empire** is opening a new satellite office in Two Women and a Warehouse (2819 Bull St).
